

Transportation

Our Transportation Group focuses on the defense of entities that are part of both ground and air transportation systems. We represent national, regional, and local carriers in business, regulatory, personal injury, and property damage litigation in state and federal courts throughout the Northeast.

Our lawyers have extensive experience defending aviation and aerospace providers in a variety of matters ranging from aircraft disasters to airport premises matters.

The group has defended aircraft disasters including:

- Defense of airport in aircraft collision involving substantial property damage
- Defense of airport in personal injury action resulting from aborted takeoff
- Defense of aviation provider in wrongful death action resulting from aircraft accident over the Hudson River
- Defense of airport in a premises claim filed by a disabled commercial passenger pilot
- Successfully subrogated substantial aircraft loss relating to the negligent discharge of fire suppressant foam in an airport hangar

The group has appeared in state and federal courts on behalf of various transportation entities, including:

- Port Authority of New York and New Jersey for Newark Liberty International Airport (NJ)
- South Jersey Transportation Authority for Atlantic City International Airport (NJ)
- Port Authority of New York and New Jersey for Stewart International Airport (NY)
- Port Authority of New York and New Jersey for Teterboro Airport (NJ)
- County of Westchester for Westchester County Airport (NY)

Our team also has extensive experience handling ground transportation matters. We respond to significant accidents, insuring prompt investigation, preserving and creating key documentary evidence (logs, load records, driver inspection reports and accident scene photographs) and interviewing important witnesses. This proactive, trial-tested strategy help set the stage for a favorable outcome.

We have extensive experience with issues involving Department of Transportation (DOT) compliance, driver qualifications, placard liability, insurance coverage (including MCS-90 endorsements), driver fatigue and cost/recovery of lost freight. We frequently counsel trucking companies and insurers on these types of issues and have developed strategic alliances with experts in all aspects of trucking litigation.

We offer full legal service to transportation and trucking companies including representation in commercial contract drafting and negotiating, human resource issues, discrimination matters, government audits for highway and/or labor force taxes and/or assessments and union issues where applicable.

Our lawyers work tirelessly to protect the interests of our carrier clients, challenging onerous regulations and the often misguided enforcement of those regulations. We have prosecuted litigation against state regulatory bodies.
