

D.O.T. Your I's and Cross Your T's: Maximizing Your Workers' Compensation Subrogation Lien Recoveries in Transportation Industry Related Accidents

NASP Annual Conference, Orlando, FL | November 13, 2018

Robert Caplan will present at the National Association of Subrogation Professionals (NASP) Annual Conference. His program "D.O.T. Your I's and Cross Your T's: Maximizing Your Workers' Compensation Subrogation Lien Recoveries in Transportation Industry Related Accidents," examines workers who are injured in transportation-related accidents on the job. These accidents are more than just collisions or rollovers and can result in claims that involve sophisticated transportation industry issues. The presentation will identify issues for lien recovery through the use of case studies and expert DOT and FMCSA analysis in order to maximize transportation claim related lien recoveries.

This presentation marks Robert's 12th consecutive time presenting at the annual conference. Robert also serves as the Track Leader for the Worker's Compensation Track. This is his 4th time serving as a NASP Track Leader for the Workers' Compensation Track.
