

## Emerging Issues in Long-Tail Exposure Insurance

Webinar | November 18, 2019

---

Long tail-claims, though decades old, aren't immune to new issues. Join Greg Capps, Bob Walsh and Ciaran Way for a 30-minute webinar as they provide a continuation of their Coverage College presentation. This interactive panel will discuss emerging issues that are arising in the long-tail coverage area.

The specific topics which will be discussed include:

- the reemergence of historical sexual abuse/molestation claims;
- the advancement of talc claims (including asbestos containing talc); and
- the entry of claims for per-and polyfluoroalkyl substances (PFAS) into the long-tail discussion.
