

Digital Roundtable Business in the USA

The Supper Club (Webinar) | April 29, 2020

White and Williams lawyers Thomas Butler, George Morrison and Nicole Sullivan join members of The Supper Club who conduct business in the United States for a discussion surrounding COVID-19-related legislation and relief. The roundtable provides an opportunity for members to catch up with peers on a similar business journey and share advice and lessons learned with other founders who understand challenges from their own personal experience.

Topics of discussion include the CARES Act PPP loans and the following return to work topics:

- workplace safety;
- privacy;
- general HR strategies;
- revising policies and procedures to comply with the mountain of guidelines that have been issued during the past weeks; and
- having a plan in place so employers are ready to begin the reopening process once the restrictions start to relax.

The Supper Club is a United Kingdom-based networking group created for business founders to grow, connect and explore.
