

Risk Transfer for Construction Defect Claims: Minimizing and Allocating Costs of Defense and Indemnity

2020 CLM Construction Conference (Virtual) | September 30 - October 2, 2020

This session will discuss what steps a claims resolution professional, defense, and coverage counsel should take and how they may work together, to identify risk transfer possibilities and make contractual and additional insured tenders. We also will examine what carriers can and should do in responding to such tenders made to their insureds or to them by putative additional insureds. Finally, we will explore how litigation costs can be contained/minimized through early risk transfer investigations, analysis, and possible mediation – to allocate defense and indemnity amounts among the various involved contractors, subcontractors, and insurers.

Speakers include:

- Angela Clemente, Allianz Resolution Management
- Barbara Laskaris-Lorigan, Arch Insurance Group Inc.
- Anthony Miscioscia, White and Williams
- Cynthia Ruggerio, Ameritrust
- Keith Whitson, Schnader Harrison Segal & Lewis
