

iNovia Capital Invests in Artificial Intelligence Platform

October 11, 2017

ROSS Intelligence announced an \$8.7 million Series A led by iNovia Capital. Using a combination of off the shelf and proprietary algorithms, as well as IBM Watson, ROSS helps legal teams sort through case law to find details relevant to new cases. ROSS currently offers products in both bankruptcy and intellectual property law and is looking to expand into other types of law, like labor and employment, simultaneously moving down to serve smaller firms.

Prior to the Series A, ROSS secured a \$4.3 million seed round also led by iNovia Capital.

Lori Smith and Josh Galante represented iNovia in both investment rounds.
