

RCM Technologies Acquires Thermal Kinetics

November 16, 2018

RCM Technologies, Inc. (RCM), a leading provider of business and technology solutions for over 25 years, has acquired Buffalo, NY-based Thermal Kinetics. With the addition of Thermal Kinetics, RCM will now be able to offer complete engineering, procurement and construction solutions to its customers around the globe.

Thermal Kinetics engineers and builds optimal thermal integrations and unique separations approaches for industrial process and equipment in the chemical, oil and gas, renewable fuels, pharmaceutical and industrial manufacturing industries. Thermal Kinetics has provided engineering services on construction and industrial processes for nearly 20 years and will serve as a key technology and development partner for RCM.

The deal, structured as an asset purchase, was facilitated by a cross-office, interdisciplinary team of White and Williams lawyers including Ryan Udell, Frank Bruno, John Eagan, Melissa Pang and Gwenn Barney.
