

C-PACE 101: An Introduction to Philadelphia and Pennsylvania Programs

Webinar
4.7.20

Commercial Property Assessed Clean Energy (C-PACE) loans are designed to help property owners lower their operating costs with clean energy solutions that increase efficiency and reduce carbon emissions. Philadelphia and Pennsylvania have officially joined this national movement to enact their own C-PACE programs. As C-PACE loans grow in popularity, developers, lenders and advisors must navigate this changing landscape.

Join White and Williams LLP and CounterpointeSRE for the first of a four-part webinar series. C-PACE 101 will discuss the definition, highlights and features of C-PACE, financing considerations for different property types, lender consent issues and how jurisdictions across the country are administering PACE programs, with a focus on Philadelphia and Pennsylvania.

Speakers:

- Timothy Davis | Co-Chair, Real Estate and Finance Groups, White and Williams LLP
- Eric Alini | Managing Partner, CounterpointeSRE
- Maryrose Myrtetus | Program Administrator, Philadelphia Energy Authority
