

CGL Policy Road Trip: 66 Advanced Stops Along the Way

The National Underwriter Company Webinar
3.30.16

The Commercial General Liability policy is the backbone of liability insurance. The policy encompasses dozens of critical provisions that have been litigated for decades in all 50 states. Some aspects of the policy and meaning of its terms are apparent on their face. Others, however, take years of experience to recognize and appreciate.

Randy Maniloff conducts a two hour webinar – sponsored by The National Underwriter Company – that will take the attendee on a “road trip” through the CGL policy, stopping along the way at 66 critical places, providing a discussion of advanced issues, the arguments raised by insurers and insureds to support their interpretation of the policy and the key decisions reached by courts. The program focuses on nuances, unique takes on issues, and issues that may not be addressed in basic seminars.

The webinar has been designed with an awareness that the attendees have many years of experience with the CGL policy.
