

The Breaking Point: Managing Expenses with Low-Valued Subrogation Cases

CLM Webinar Series
5.9.18

PRACTICE AREAS

Subrogation

Presenters will discuss the challenges involved with handling worker's compensation subrogation claims that may be costly to prove, but that involve relatively insignificant damages. The presentation will focus on the risks and benefits of working with claimants that sustain out-of-pocket damages, in an effort to contain investigation and litigation costs. Strategies for conducting a cost-effective forensic investigation of workplace injuries will also be addressed.
